

Arizona Department of Environmental Quality

Vehicle Inspection Program

Vehicle Failing the Retest.

Since your vehicle failed its retest, you must:

A. Have further repairs completed and then pass an additional paid inspection.

OR

B. Apply for a waiver from further repairs for this registration period by providing evidence of meeting waiver requirements to an Arizona Department of Environmental Quality Inspector at one of the waiver stations listed below. You must have completed all appropriate repair requirements shown on the back of your Vehicle Inspection Report.

Please read "Important Information" section below.

You must bring your vehicle, repair receipts, repair orders, and all supporting documents to one of the waiver stations listed on the back of this notice.

A vehicle is not eligible for a waiver unless all factory-installed emission control devices are in operating condition. All appropriate repairs within the applicable repair cost limit (below) must be properly completed to qualify for a waiver.

1980 Model Year and Newer	\$450
1975-1979	\$300
1974 or Older	\$200
Heavy Duty Diesel	\$500

Important Information

ONE TIME ONLY WAIVERS - Vehicles may receive only one repair waiver, which is valid for the current vehicle registration. Once a waiver has been granted, the vehicle is not eligible for another waiver in future years. Failing vehicles that have already received a waiver must be repaired and pass inspection before being re-registered in metro Phoenix or Tucson. If your vehicle fails, it may be better for you to repair the vehicle to pass inspection, rather than to seek a waiver.

State law requires the seller of a vehicle receiving a waiver to tell any potential buyer they will not be able to get another waiver for the vehicle in future years.

Vehicles with emissions readings more than two times the applicable standard may not receive a waiver, unless repairs result in emissions readings below twice the standard.

Vehicle Repair Assistance Program

Repair assistance is available to current food stamp recipients whose vehicles fail inspection, or to owners of vehicles which have received a One-Time-Only waiver since January 1997. Assistance of up to one half of the repair cost limit is available through this program. Information, Grant Applications and instructions are available at inspection stations (See Technical Advisor in office).

Waiver Station Information

Hours

8:00AM to 6:30PM

**Monday through Friday
(excluding State holidays)**

Waiver Fee

\$15.00
